DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This farmstead includes a late 19th century brick house and a frame bank barn. They are located at the end of a long private lane which extends in a northwesterly direction from Edgewood Drive southeast of Hagerstown in Washington County, Maryland. The buildings are situated on relatively level limestone land with the house and barn each facing south.

The house is a two story, three bay brick structure resting on low fieldstone foundations. A two story, two bay flat roofed wing extends to the rear or north. Bricks are laid in common bond at all elevations with six courses of stretchers between header rows. The entire surface of the building has been painted white.

Windows appear long and narrow with segmentally arched heads of brick and two over two pane sashes. Hinge pins for shutters remain in the walls.

The roof is sheathed with modern asphalt shingles. Original chimneys are small brick structures with corbels at their tops.

The main entrance is located in the center bay of the front elevation and is sheltered by a flat roofed entrance porch supported by turned posts.

Outbuildings which appear contemporary with the barn are located nearby.

All of the structures appear to be in good condition and stand on a tract containing 284.34 acres.
